Community Response to COVID-19

Collaborate and share resources! As your state coordinating team, we are here to support you, be an integral resource for our state-wide programs, link you to nation-wide resources, and empower you, Main Street leaders, to assist your communities. During this difficult period, it is pertinent that our efforts increase communication across our network and provide timely and effective assistance to your local objectives and obstacles. One of the ways we aim to do this is to share the ideas, resources and strategies your community is taking in response to the pandemic with your Arkansas peers.

Please use this fillable form to share the resources your community has been using during the COVID-19 crisis. We will share this information on the Main Street Arkansas blog and social media pages! We are in this together.

Local Program: _____

Director: _____

Resource Name: _____

Attachments:

Please attach any materials and pictures for us to feature and share.

Description:

Note: You can also access nation-wide resources and strategies at the Main Street America blog and COVID-19 Resource network.
